

## Datasheet for Drain cloth: 41-00.001

### Features

With decades of filtration experience Filtration Group B.V. has developed a cloth range to give a solution to all your filtration challenges.

Our broad range of drain cloths is developed in such a way that depending on the demanded temperature range, chemical resistance and selectivity the best solution for your process can be chosen.

A drain cloth maximizes the throughput and the lifetime of the top cloth.

### Characteristics

- No seam (round weave) - no breaks. This brings stand-down time to a minimum.
- Optimized weave, making the best throughput-cost ratio.
- Packed in plastic bags to prevent the cloths from becoming dirty.
- A sticker on the plastic bag identifies the cloths. Because the identification sticker does not touch the cloth itself there is no risk of ink or glue going into hygienic applications.

### Specifications

Cloth code	41-00.001
Cloth use	Drain cloth
Material	ETFE
Cloth structure	Monofilament
Surface treatment	Untreated
Filter fineness [ $\mu\text{m}$ ]	200
Air permeability [ $\text{l}/\text{dm}^2/\text{min}$ ] at 200 Pa	-
Maximum temperature [ $^{\circ}\text{C}$ ]	150

### Approvals

Approved according to 2004/1935/EG, declaration of conformity available on request.

### Recommendations

Use in combination with top cloth 41-XX.XXX.

## Order Information

Element type	Length	Ordering Code
Type I	620	-
	750	-
	1000	72415710
	1500	72415715
	2000	-
Type II	1000	-
	1500	72415717
	2000	72415720
	2500	72415721
